VI DE VILA GRATALLOPS

www.closmogador.com

This is the name of a region of the territory of Gratallops in the Priorat. A daring venture where vines can barely survive given the poor soil of the region, the intense sunlight and the bleak exposure.

However, this is exactly what gives rise to the principal essence of Priorat!

In this parched area, arid and steeply sloping slate, are grown our Carignans - an extraordinary vineyard in an extraordinary setting.

Today, that work has paid off and visitors to the region can appreciate the vast horizon where the Ebro river gives from time to time out, a modicum of humidity - just enough to allow the vines to survive.

The final result is staggering - giving us a wine with minerality, femininity, subtlety and complexity which gives our hearts joy.

Manyetes is, quite simply, the essence of Priorat transformed into wine.

René Barbier Ferrer

THE RECOGNITION OF THE TERROIRS OF
PRIORAT HAVE PAVED THE WAY FOR THE
APPELLATION "VI DE LA VILA" GRATALLOPS, LIKE
THEY ALREADY DO IN BURGUNDY, FRANCE.
THE PRESTIGE OF THIS AREA HAVE NO LIMITS
AND "MANYETES" CANNOT ESCAPE THAT
DESIGNATION.

MANYETES 2015

“VI DE LA VILA” GRATALLOPS

“Les Manyetes” is a south-facing vineyard, located at 250m above sea level. The soil is 100% “llicorella” (a type of schist) with very little top soil, where the vines struggle to survive. It is our hottest vineyard plot.

In this soil and with this type of sun exposure, the Carignan grape variety offers surprising freshness, yet it still retains its bold tannins.

Comments on the 2015 vintage:

The elegant version in Carignan wine.

The year 2015 was a vintage without excess, the ideal setting that every vine grower wishes: the right amount of rain, the necessary heat. If we could be in command of climatic conditions, we would press key 2015.

A wine is what it is, due to the soil, the climate and the interpretation of the vine grower/ wine maker/ wine producer.

The climate in 2015 spoke loud and clear. It is a balanced vintage, endowed with that elegance that arises when all adjusts the correct proportions. Tannins, acidity, texture, aromas... all the elements join together to provide the sensation of pleasure, even since the earliest stages of the wine.

Enjoy it now or in the next 15 years.

To your health!

René Barbier Meyer,
Clos Mogador Winery Winemaker

MANYETES 2015
