Clos Mogador

F. LLA. BARBIER MEYER

www.closmogador.com

Manyetes' adventure begins in 1999 and lasts until today. Its evolution has been impressive. We started off making a wine for a Belgian friend of ours, Luc van Iseghem. He had a vineyard in the area called Manyetes within the subzone of Gratallops, his wine was named Clos Manyetes and so he registered this name.

It was a 6-hectare plot which we planted with Grenache, Syrah and a bit of Cabernet. In order to improve this wine more quickly, in 1974 we rented the adjoining Carignan plot planted on slope.

Somewhere along the timeline, each grape plantation was vinified under the brand name of Solertia by another owner. Except the Carignan plot which Clos Mogador rented and from which produced the first **Vi de Vila**¹ de Gratallops (vintages 2007 till 2017). In 2018, knowing the great potential of this area, Clos Mogador bought the plot, together with another adjacent one, planted around 1961/62 and evidently also acquired the brand name Manyetes (around 5 hectares).

We are well aware that pursuing this project is an irrational and emotional decision, since the vineyard has a very low yield and is subject to very extreme climate conditions. But on the other hand this vineyard expresses, like no other place does, the transparency of its terroir and therefore it provides a unique and exceptional wine.

Our aim is that Manyetes wine, from 2018 onwards, becomes a **Vi de Paratge**², that is to say Wine from a Defined Small Area so that, later on, it can achieve the category label of **Gran Vi de Vinya Classificada**⁴ or Great Wine from a Classified Vineyard.

Obviously we will let other *Vi de Paratge* arise in Manyetes with us, since this area, with a proper control, will come to identify with the authentic harmonic potential of Priorat.

René Barbier Ferrer

1. **Vi de Vila**. An identified and limited area within the territory of DOQ Priorat under the nomenclature "Vi de Vila".

2. **Vi de paratge**. An identified and limited area within the territory of "Vi de Vila" under the name of the correspondent place (*paratge*).

3. **Wine from a Classified Vineyard**. Vineyards identified and delimited within the territory of the DOQ Priorat which makes up an homogeneous geographic unity.

4. **Great Wine from a Classified Vineyard**. Old vineyards identified and delimited within the territory of the DOQ Priorat which makes up an homogeneous geographic unity.

MANYETES

2017

Scarce, concentrated, with light tannins, Manyetes is without doubt our less productive vineyard (7ohl./ha.). This vintage 2017 has even a lower yield than normally.

The forecast for the 2017 vintage was of high concentration, but we have been surprised by its light and armonious tannins.

The Manyetes DNA is to be an ageing wine, but for this vintage I think it can really be drunk in its youth, accompanying a consistent meal.

We hope you enjoy some of the few bottles of this 2017 vintage.

René Barbier Meyer,
Clos Mogador Winery Winemaker
